

Dear Sir/Madam

Greetings from Health Biotech Limited!

We take this opportunity to introduce ourselves as a leading finished formulation pharmaceutical manufacturing and marketing company located in Baddi (HP) in the excise free zone, having its corporate office at Chandigarh.

Our mission is to provide quality medicines reaching far and wide, both in the domestic and international markets with a vision to provide '**Health For All**'.

We are a WHO GMP/ISO 9001:2008 certified pharmaceutical manufacturing company having a team of over 500 well qualified professionals who stay well updated on modern technology and latest equipments to meet international quality standards in the field of healthcare products.

Businesses today thrive by focusing on what they do best and leaving the rest to others. HBL's Contract Research and Manufacturing Services (CRAMS) seem to fit neatly into this practice. In addition to allowing our pharmaceutical business partners to focus on their core competencies, we offer numerous other advantages over in-house manufacturing, including lower costs, flexibility, access to external expertise and reduced capital.

Apart from adhering to stringent QA/QC procedures, we also ensure timely deliveries and excellent customer relationship management. To enhance the quality of service for our customers, Health Biotech Limited has revamped its production facilities recently to comply to current cGMP norms. Realizing the need of a direct and transparent interface between the company and customers, we have also established a **Customer Care Cell** to promptly address to the issues/problems/grievances, if any, faced by our customers.

We have a well established **Health Biotech Research Center (HBRC)** duly recognized by the Govt. of India, with **state-of-arts facility to pursue research in the field of Pharmaceuticals Research and Development. A dynamic team of scientists and research scholars are working on the development of Nanoformulations of various drugs and novel Biopharmaceuticals.**

Health Biotech Limited has made a global presence by way of exporting its products to ROW and Emerging markets. Our products are registered in various countries in the **South East Asia, Latin America, CIS and Africa.** With its latest

lyophilizing facility ready for audit by International regulatory bodies (UK-MHRA), we have extensive plans of entering into the regulated world markets with our vast range of specialty injectable products. We have accreditation from MOH Iraq, Syria, Yemen and NAFDAC Nigeria.

We undertake **contract manufacturing** or **toll manufacturing** on behalf of more than 300 Indian multinational companies, and our customer base is rapidly increasing due to maintenance of high quality standards at the most affordable prices.

We also doing **INSTITUTIONAL BUSINESS**, HBL focus to work on **105 Govt / Semi Govt institutes tender.HBL received drug approvals from 20 Govt. and Semi Govt. institutions in India for supply of drugs manufactured by the company.**

We fill and finish pharmaceutical formulations in the following categories & forms:

- **Oncology (anti-cancer)** and Hormones
- Critical care injectables
- Pre-filled syringes
- Tablets
- Capsules
- Powders
- Dry syrups
- Eye/Ear/ Nasal drops
